**We are excited that you are interested in and are applying to attend the American College of Orgonomy's 2024 Laboratory Course on The Reich Blood Test. In order to help us make the course as interesting and educational as possible for you, we would appreciate your briefly responding to the below questions and requests for information.**

1. Please list and describe your educational experience to date, including the highest grade/level of training achieved:

2. What have been your favorite areas of study in school?

3. What courses in the sciences have you had? Which science courses did you most enjoy? Least enjoy? Why?

4. An important part of the laboratory course involves using a microscope in making observations. Please describe your experience using a microscope. How comfortable are you using a microscope? Would an orientation or short refresher section be of interest to you?

5. What do you do for a living? What do you enjoy about your work?

6. How did you find out about the laboratory workshop?

7. What is your background in ergonomics? Please include relevant experiences you have had, such as workshops, conferences or presentations, books or journals, therapy, research, etc.

8. What do you hope to get out of attending this lab course?

9. Is there anything that you would like us to know about you that might enhance your learning and enjoyment in this workshop and finding it useful for you?

**Please feel free to add any additional information that you feel would help us get to know you.**

**Your Signature** \_\_\_\_\_

The adult non-student fee for the lab course is \$300. The full-time student fee is \$150 (full-time students with a current valid student ID.) Once your application is received and reviewed, you will be informed whether you have been accepted into the course. At that time, we will request a check for payment from you. Do not send a check until we notify you of your acceptance.

As space in the course is limited, please return your completed application **no later than August 1, 2024** to:
